

# Community Involvement Program

WORKING TOGETHER FOR THE GOOD OF OUR COMMUNITY.

# Can Your Organization Benefit From A Community Involvement Program

---

- You desire a fundraising program that involves no upfront cost or expense
- You like the concept of not having to “sell” anything to friends or family.
- The idea of a program that works 24 x 7 all year long is appealing to you
- The idea of earning donations by eating out locally within the community is easy.
- Being able to see how much you have earned on a “real time” basis is important.
- Being paid for your efforts on a quarterly basis with a written report is important.

# How It Works!

---

- Your organization will be given Rewards Cards that have a unique code on them that are specific to your group.
- Each card will have \$10 of value loaded on to the card as a gift to your members from our restaurant. No strings attached!
- Distribute the cards to members of your group. Every time they dine with us, your organization earns a donation.
- Each time the card is swiped on our rewards processing terminal, an automated donation of 5% is recorded and allocated to your organization.
- Your group leader will be provided with a specific password to our software which will enable them to view visits, spending and donations for their organization.
- 100% transparency!

# How It Works For Your Members

As cards are activated by customers through your fundraising distribution efforts, your membership database continues to grow.

# Saying Thank You Is Important!

---

**The day after visiting our restaurant, your community members will receive a thank you email.**

It will detail the cash back rewards and donation earned for your charitable organization.

- These emails are sent to your members directly from us every single day on auto-pilot. These messages act as a cementing benefit reminding your members of their visit and how our business supports you with every transaction.
